The PEPPOL Interoperability framework

European Interoperability
Framework (EIF)

To adopt this framework all a business needs to do is

- ▶▶ know the identity of its trading partners
- ▶▶ agree that the framework standards cover the required business transaction
- ▶▶ ensure its software or service provider is connected to a certified Access Point

The value of PEPPOL

- ▶▶ Market enabler for interoperable e-procurement solutions
- ▶▶ Standards based business process interoperability through PEPPOL BIS
- ▶▶ PEPPOL eDelivery Network and PEPPOL Transport Infrastructure Agreements enables the technical and legal basis for interoperability
- ▶▶ Significant simplification and improvement of the on-boarding process for buyers and suppliers that want to trade electronically

PEPPOL and OpenPEPPOL learning points and opportunities

Learning points

- ▶▶ Government focus on standards based e-procurement and cross border governance enables the market to deliver interoperable solutions and services
- ▶▶ PEPPOL provides a common interoperable business transaction standard across public sector bodies and their supply chains
- ▶▶ PEPPOL prevents the mandated use of any single provider
- ▶▶ PEPPOL simplifies the on-boarding process for buyers and suppliers that want to trade electronically, significantly
- ▶▶ The PEPPOL approach has proven relevant also outside countries originally part of the PEPPOL project and outside Europe

Opportunities

- ▶▶ Single source/centralised approach or standards based market driven approach?
 - ▶▶ Government role as system owner vs market facilitator?
 - ▶▶ Short term choice with a long term impact!
- ▶▶ How can the your government benefit from the standards based PEPPOL approach to electronic invoicing?
 - ▶▶ Be inspired by it?
 - ▶▶ Be part of it?
